

**RFQ No. 2022-001-GIRLS INC. Education/Recreational Facility  
ADDENDUM #2 - Thursday, February 3, 2022**

**Q.** For RFQ-QPCLAU-003 (page 17) and Form RFQ-ELAE-006 (page 18) appear to be the same except for the name. We have gotten down to Part G (RFQ-ELAE-006) page 18 with our response and have already received our References back using RFQ-QPCLAU-003 Qualifications. Was this form intended to be used as the ELAE? If not, can you provide the correct form.

**A.** We have reviewed form RFQ-ELAE-006 and are unable to locate a "Part G" as described in your question, therefore we are unable to provide a response at this time. Form RFQ-ELAE-006 is required to demonstrate the experience of the Lead Architect/Engineer (individual) proposed for the project. Form RFQ-QPCLAU-003 is required to demonstrate the qualifications of the Prime Consultant (business name/firm) and those who have ownership in the firm which may include the lead architect or urban planner. Each form is unique and required as part of the submission.

**Q.** Is there a page limit? If so please provide the number of pages to be included, and advise which pages of the response will not be included in the page count (i.e. tabs and dividers).

**A.** No, there is not a page limit, as long as the content provided is relevant to the RFQ and subsequent forms.

**Q.** Please clarify the duties of an "Adaption Specialist" and how it relates to this RFQ for Architectural Services.

**A.** For the purposes of Form RFQ-EAS-008, an Adaptation Specialist will ensure storm water management design is compliant with regulation performing necessary modeling and analyses as applicable
